The Denver Exposition.

PRESCOTT, May 26, 1882. Whereas, It is proposed by the citizens

August, 1882; and Whereas, An invitation has been ex als, mining machinery, etc., and

selecting a suitable person who shall be commissioned by the Executive of the and one half feet wide fifteen inches Territory to make a full collection of ores of his district, ascertain the assay value and character of the same, prepare suitable and character of the same, prepare suitable cases in which the same may be placed in the department set aside for Arizona, and to be taken and transported to Denver The representative appointed to be present at the exposition to take charge of the mining district he represents. The Exscutive will also appoint one commissioner, whose duty it shall be to secure suitable accomodations from the proper authorities controling the exposition, and to allot to each representative from the Territory his proper space, and to generally super-vise and report upon the conduct of our

The Executive of this Territory is without funds under his control, by which the expenses connected with the arrangement for conduct of said exhibition by the Territory can be paid.

The several mining districts are there-

fore most respectfully requested to provide the necessary means to enable their reentative to carry out the objects of this address. The press of Arizona are most earnestly

asked to publish this address untill the 10th day of June, 1882. Most respectfully presented by F. A. TRITLE, Governor,

Denver Mining Exhibition.

Arrangements have been made for holding at Denver, Colorado, in the month of August, 1882, the first exhibition ever connected with the mining industry. The plan of the exhibition has been received with great favor, and it is already certain that the most important and valuable col-lection of ores, machinery and reduction products ever gathered in the United states will be exhibited at Denver. Large numbers of men interested in mines, investors, managers, miners, millwith the development of the great mining industry will be present. The American Institute of Mining Engineers, which numbers among its members more than one thousand of the leading mining men in America, will hold during the exhibition its first meeting west of the Mississippi river. In every respect this exhibition and the gathering of promi-nent men to which it will give rise will be important to Western mining interests, which will receive the principal attention both in the exhibition and in the meeting of the engineers. Arizona cannot afford to pass this favorable opportunity without energetic action. Much as our remarkable mining resources de-serve attention and development, they will not receive it unless we bring them to the knowledge of the world at times and places. The Denver Exposibeen afforded us since the beginning of mining in Arizona. For the purpose producing concerted action on the part of Arizona mining men, his Excellency, Governor Tritle, has issued an address to the people, in which he calls upon the residents of each mining district to choose a representative before the 16th day of June, and he has also app me Commissioner for the whole Terri-tory. Under this commission I hereby notify all District Commissioners that tions of ores and other exhibits should be sent properly packed and charges prepaid to one of the following points: Yuma, Maricopa, Tucson, Benson, Willcox, Bowie, in time to be at the railroad station before July 15th. As to the kind of exhibits desired this is necessarily governed by the character of mining resources in the Territory. Ari-

z na has already become remarkable for i's free milling silver ores and oxidiz d copper ores, and both of these shoud receive the atmost attention, as they are the subject of inquiry amongst mining men and investors. The Territory also contains extensive indications of lead, gold cres and coal, which should be proposed to the subject of the subject of inquiry amongst mining a good wind on the beam. The playful breeze fresheas in flaws, as if trying to gold cress and coal, which should be proposed to the subject of the subje

fluxes, and coal, X-Products of mills and reduction

XI-Plans and models of mines, mills and chemical factories.

XII—Clear and detailed descriptions of

the methods adopted for treating the ores, with plans of machinery.

XIII—Each district should send one auit of specimens of country rock, show-

XIV—Statistics of ore mined, ore treated and bullion produced since the beginning of mining operations, and beginning of mining operations, and GEORGE SOUTHILL-WM. N. KELLT. especially for the year which has elapsed since the collection of the census statistics up to June 1, 1882. In addition, the tics up to June 1, 1882. In addition, the

> classes of exhibits, I wish to say that this exhibition can be made of great permanent value to the mining profession if the approach a distant scene makes it grow managers of mills and other reduction distinct while you wink with wonder, works will give to the Commissioner a things grow larger, as if under the illusions of magic; you feel the perspectshort account of the methods used in reducing their ores. In mills, the weight of stamps, number of dreps, size of stamps, number of dreps, size of screens, single or double discharge, weight quickly assumes the form of headlands; of pan charge, length of pan run, use of chemicals both as to quantity and mode of adding them, mode of handling quicks silver, amalgam and bullion, and the silver, amalgam and bullion, and the the trees; a mill suddenly grows up; quantity of each, proportions of settling the rocks are now all coated with ice; tanks, all questions that affect losses, whether in slimes or tailings, are some of the points desired. In smelting works the style of furnace, character of ore, fluxes and fuels, the losses in slag and

flue dust, the management of sulphuret ores, and everything that relates to obtaining a merchantable product in one operation, are in place. It is to be remembered also that the attention of thinking men will be aroused most certainly by descriptions of experiments, novel arrangements and the frank state-ment of difficulties, whether overcome or not. A careful selection of specimens showing the country rocks connected with of Colorado to hold a mining exposition the ores will have great interest for expein the city of Denver, to be opened in rienced mining men. Especially important 1882, and occur in dykes and are abundant in Aritended to the people of Arizona to participate in the same, and present for ex- such collections, and who will freely give hibition specimens of their various miner- their aid in making the ore deposits of Arizona understood and appreciated. Specimens of ore should be accompanied Whereas, The Executive has reason to believe that the several railroads passing through Arizona, New Mexico and Colorado, will transport all ores free of charge to said Denver, and Whereas, It is most especially important that arrangements be perfected looking diving the position, altitude, surface character (whether mountainous or rolling), to Arizona's proper representation.

Therefore, I hereby request that the citizens of the several mining districts throughtout the Territory, hold a meeting car before June 16, for the purpose of case to contain its exhibit, and such cases to contain its exhibit, and such cases

cover hinged at the back; length sufficient to contain the specimens sent. the department set aside for Arizona, and ship to the nearest point on the railroad, to be taken and transported to Denver feet high and eighteen inches deep. If any district omits to appoint a commis-sioner, any person desiring to exhibit can send his specimens marked as above, prepaying charges, and write to the neares appointed commissioner, asking him to take charge of his exhibit.

District Commissioners, when pointed, are requested to communicate with me for the purpose of securing harmony of action. Communications on the subject of the exposition may be addressed to me or to Thomas R. Sorin Assistant Commissioner, Tombstone, A. T.

DIRECTIONS FOR PACKING.

Select fresh specimens if possible Wash them clean, using a tooth brush to remove hardened clay. Do not pusie any label on them. Write separate label for each speci

giving name of mine, district, county and owner. 5. If necessary to mark the specimen use red paint and a small camel's hair

brush, and make small figures.

6. Wrap the specimen with its label Pack in a strong box and fill the

box, so as to prevent shaking. Do not use sawdust, but pack in with paper. Paste the printed address attached to this circular on one end of the box, organized in America principally for min-ing machinery, ores, products of mills, ages not marked with ink will not be re-smelting works and other establishments All packages should be addressed as

> JOHN A. CHURCH. Mining Exposition, Denver, Colorado.

Queen Elizabeth's English. We are reminded, says a writer in Belgravia, of the oriented letter of Queen Elizabeth to Sir Christopher Hatton, by Stoke Pogis manor. It was invested in his daughter-in-law, the widow of Sir William Hatton, who married Sir E. Coke, and it does not seem that she was happy with the great man, for they lived separately for some time; and, on hearing of the death of Coke she went at once to claim it with her brother, Lord Wimbledon; but at Colnebrook she met the physician, who assured her that the great lawyer had improved in health, and she went back to London much disappointed.

There is more than one version of Sir Christopher Hatton's obtaining possession of the Bishop of Ely's house in Holborn. It is even said that in the first instance he only wished to build a townhouse in the garden, but the Bishop objected, and then he thought that Ely Place itself would suit him better, and hence the well-known letter of the Queen to the Bishop. But probably there was really a gentle hint to his Lordship that the Lord Keeper wanted the house for his town residence on lease, and that was sufficient to induce the prelate to Queen Elizabeth; then having herself taken a fancy to it, occupied it in place of the Lord Keeper; but a new

Ice-Vachting on the Hudson,

This exciting sport is described and illustrated in Scribner, from which we escape you; but still you follow its way-ward motions. You start when it starts, In general the exhibits will naturally fall into broad classes like the following: and glide with the lightness and the grace of its own whirling dance. The winged swallows skimming over the ice As they cross and recross your course, you hope that every Captain knows his business and will avoid collisions. The ice-yachts have anticipated your wish, VIII—Sulphureted gold ores.

IX—In connection with the above, iron ores and limestones suitable for large and larg slow length along. The loe seems to be rutming under you with great speed, and you sometimes feel that you might easily drop off the open, spider-like frame of the yacht. By such rapid motion, the bubbles, crystals and lines of the ice are all woven into a silky web of prismatic bases. You distinguish only the cracks that run with the cracks the cracks that run with the cracks the cracks the cracks the cracks that run the cracks that run with the course, and, when they deviate from it, they seem to jump from side to side without connecting angles or curves. The munds and ing the limestone, shale, quartzite or granite, and especially any eruptive rocks that occur in the district. runners hum on the ice with a crunchwood, water and agricultural resources of ing sound, and a slight ringing and each district should be given; or failing crackling; and a little spurt of crushed the existence of these, the usual source ice flies up behind each runner and flashes like a spray of gems. The yacht In regard to the twelfth and thirteenth seems more and more a thing of the air statues of winter's sculpture are modeled before your eyes, and decked with flash-

ing crystals just as you turn away to some other point of the horizon. So you eem to be continually arriving at distant "A regatta is to be sailed over this ourse, and you arrive in time to see the start. The yachts all stand in a row, head to the wind. At the word, the first n the line swings stern around till her sails fill; she moves off at once, and the crew jump aboard—one man standing or ying on the windward runner-plank and holding on to the shrouds, and the helmsman and another man lying in the ox. Then the other yachts successively swing around; and, in a moment, the whole fleet is under way, gliding in zig-zag courses among the windrows and mounds. They all dimmish in apparent size with astonishing rapidity; they seem actually to contract in a moment to a mere white speck, skimming about the river miles away. You join the crowd of men and boys stamping and slapping to keep warm; you exchange a few words with a friend, and, when you turn around again, behold the yashte sweep ing down upon you! They grow as they come, flying at you with a wayward, cr-ratic course, and you feel the wonder of embodied speed. The ten-mile race of the ice-yachts is lost and won in as many minutes. But for those who sailed it these minutes were filled with more excitement than is found in many a long

It is the concurrent testimony of the public and the medical profession, that Hostetter's Stomach Bitters is a medicine which achieves Stomach Bitters is a medicine which achieves results speedily felt, thorough and benign. Beside rectifying liver disorder, it invigorates the feeble, convuers kidney and bladder complaints, and hastens the convalescence of those recovering from enfeebling diseases. Moreover it is the grand specific for fever and agre.

WILSON & LEBLANC, Prop'rs.

Remorkable Escape. John Kuhn, of Lafayette, Ind., had a very narrow escape from death. This is his own story: "One year ago I was in the last stages of consumption. Onr best physicians gave my case up. I finally got so low that our doctor said I could not live twenty-four hours. My friends then purchased a bottle of Dr. Wm. Hall's Balsam for the lungs, which benefited me. I continued until I took nine bottles. I I continued until I took nine bottles. I am now in perfect health having used no other medicine," From the above it is plainly evident that there is a cure for consumption, even in the most hopeles cases, and that cure is Dr. Wm. Hall's Balsam for the lungs. Cures all coughs and colds. Cures all diseases of the lungs and chest. Cures pneumonia and sore throat, and is a sure cure for consumption,

Bush that the undersigned has performed the annual assessment work—amounting to 3100—for the year 1881, on the Pinafore mine, in Sacaton mining district, Pinal county, A. T., and you are hereby notified that unless you pay your proportion of the same, to wit: 833 each, within ninety days from the date of the publication of this notice, your interests in said mine will be forfeited to the undersigned according to law, and you will also pay for this advertisement.

April 22d, 1882, 4-13. John Sullivan. April 22d, 1882. 4-13 John Sullivan.

How to secure health

It is strange any one will suffer from derangements brought on by impure blood, wheh scovill'ssarsaprilla and stillingia OF BLOOD AND LIVER SYRUP Will restore health to the physical organization. It is a strengthening syrup, pleasant to take, and the BEST BIOOD PURIFIER ever discovered curing scrofula, syphilitic disordera, weakness of the kidneys, erysipelas, malaria; nervous disorders, debility, bilious complaints and diseases of the blood, liver, kidneys, stomach, skin, etc. an infallble cure for rheumatism, sprains, ameness, and diseases of the scalp, and or promoting the growth of the hair.

Rescued from Death.

William J. Coughlin, of Somerville, Mass., says: In the fall of 1876 I was taken with bleeding of the lungs followed by a severe cough. I lost my appetite and flesh, and was confined to my bed. In 1877 I was admitted to the hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a re-port went around that I was dead. I gave up hope, but a friend told me of Dr. WILLIAM HALL'S BALSAM FOR THE LUNGS. I got a bottle, when to my surprise, commenced to feel better, and to-day feel better than for three years past. 'I write this hoping every one afflicted with diseased lungs will take Dr. WILLIAM HALL'L BAISAM, and be convinced that CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since

Important Notice-Words of Warning.

my sickness.

We desire to give this friendly word of warning to whom it may concern, that all persons who have been, or are now dealing in a prepa-ration called "Clayton & Russell's Celebrated Stomach Bitters," put upon the market by Stomach Bitters, put upon the market by Adams & Co., of New York, render them Adams & Co., of New York, render themselves liable to prosecution and damages, as said article has been pronounced by the U. S. Circuit Court, Southern District, New York, in a dicision rendered by his Honor, Judge Blatchford, February, 1852, as being an imitation of Hostetter's Celebrated Stomach Bitters, and who granted a decree of perpetual injunction with damages, against the saids Adams & Co. for violation of our trade mark in the premises. The principle of this important decision applies with equal force to any article of bitters, the labels of which bear a general resemblance to our trade mark, as well as to the refilling of our old bottles with spurious stuff, or selling in bulk any article purporting to be our reling of our old bottles with spurious stuff, or selling in bulk any article purporting to be our preparation, and hence this friendly word of caution. We never fail to convict, as the country records of New Orleans, St. Louis, New York and other points fully affirm.
